

Capstone Project Requirements

Following requirements are determined for a capstone project:

- i. There may be several approaches for achieving the aim of the project and students are encouraged to choose their own method.
- ii. Collaboration amongst team members should be a necessity and work load distribution must be carried out by team members.
- iii. Survey of contemporary literature is a necessity.
- iv. Students must be aware about the social, environmental, ethical and economical impact of the result of project.
- v. Work done in project should be documented in a standart format.
- vi. Each team must present their work in front of a jury. Jury members should be assigned by program coordinator, including at least one external member.
- vii. Capstone project continues for two semesters. Students who have taken the first graduation project before February 2013, took the second project as capstone project for one semester.
