

**GAU FACULTY OF MEDICINE**  
**PHASE IV (CLINICAL PRACTICE)**  
**GYNOCOLOGY**

Week 1	23.01.2023 Monday	24.01.2023 Tuesday	25.01.2023 Wednesday	26.01.2023 Thursday	27.01.2023 Friday
08:00-08:50	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice
09:00-09:50	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice
10:00-10:50	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice
11:00-11:50	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice
12:00-13:00					
13:00-13:50	Free Time	Clinical anatomy of the female genital system	Menstruation physiology	Free Time	Fetoplacental development and physiology
14:00-14:50	Free Time	Gynecology and obstetrics anamnesis and examination	Menstruation physiology	Free Time	Maternal adaptation to pregnancy
15:00-15:50	Free Time	Preconceptional care and antenatal follow-up	Pregnancy endocrinology	Free Time	Natural delivery
16:00-16:50	Free Time	Steroidogenesis	Formation and diagnosis of pregnancy	Free Time	Operative vaginal delivery and caesarean

Week 2	30.01.2023 Monday	31.01.2023 Tuesday	01.02.2023 Wednesday	02.02.2023 Thursday	03.02.2023 Friday
08:00-08:50	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice
09:00-09:50	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice
10:00-10:50	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice
11:00-11:50	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice
12:00-13:00					
13:00-13:50	Free Time	Abnormal presentations and dystocia	Isoimmunization	Free Time	Multiple pregnancies
14:00-14:50	Free Time	Abnormal presentations and dystocia	Puerperium physiology and diseases	Free Time	Trauma and surgical diseases in pregnancy
15:00-15:50	Free Time	Birth complications and postpartum hemorrhages	Puerperium physiology and diseases	Free Time	Evaluation of fetal well-being
16:00-16:50	Free Time	Pregnancy and diabetes	Prenatal diagnosis and evaluation	Free Time	Free Time

Week 3	06.02.2023 Monday	07.02.2023 Tuesday	08.02.2023 Wednesday	09.02.2023 Thursday	10.02.2023 Friday
08:00–08:50	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice
09:00–09:50	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice
10:00–10:50	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice
11:00–11:50	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice
12:00–13:00					
13:00–13:50	Free Time	Fetal hypoxia and intrauterine growth retardation	Preterm labor, its management and EMR	Free Time	Systemic diseases in pregnancy
14:00–14:50	Free Time	Abortions	Post-term pregnancies and termination of pregnancy	Free Time	Hypertensive diseases in pregnancy
15:00–15:50	Free Time	Third trimester bleedings	Perinatal infections	Free Time	Drugs and teratology in pregnancy and lactation
16:00–16:50	Free Time	Free Time	Systemic diseases in pregnancy	Free Time	Dysfunctional uterine bleeding

Week 4	13.02.2023 Monday	14.02.2023 Tuesday	15.02.2023 Wednesday	16.02.2023 Thursday	17.02.2023 Friday
08:00-08:50	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice
09:00-09:50	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice
10:00-10:50	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice
11:00-11:50	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice
12:00-13:00					
13:00-13:50	Free Time	Diagnosis and management of hirsutism	Sexually transmitted diseases	Free Time	Evaluation of the infertile couple
14:00-14:50	Free Time	Menopauses and its management	Pelvic inflammatory disease	Free Time	Treatment of the infertile couple
15:00-15:50	Free Time	Anovulation and polycystic ovary syndrome	Dysmenorrhea and chronic pelvic pain	Free Time	Endometriosis
16:00-16:50	Free Time	Ectopic pregnancies	Free Time	Free Time	Acute abdomen in gynecology

	20.02.2023	21.02.2023	22.02.2023	23.02.2023	24.02.2023
Week 5	Monday	Tuesday	Wednesday	Thursday	Friday
08:00–08:50	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice
09:00–09:50	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice
10:00–10:50	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice
11:00–11:50	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice
12:00–13:00					
13:00–13:50	Free Time	Assisted reproductive techniques	Stress incontinence in women	Free Time	Benign and suspicious adnexal masses
14:00–14:50	Free Time	Family planning and contraception	Genital cancer search and screening	Free Time	Benign and premalignant diseases of the cervix
15:00–15:50	Free Time	Pelvic organ prolapses	Benign and premalignant diseases of the vulva and vagina	Free Time	Malignant disease of the cervix
16:00–16:50	Free Time	Non epithelial Tumors of the Uterus	Malignant diseases of the vulva and vagina	Free Time	Gestational trophoblastic neoplasms

Week 6	27.02.2023 Monday	28.02.2023 Tuesday	1.03.2023 Wednesday	2.03.2023 Thursday	3.03.2023 Friday
08:00-08:50	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice	<b>Practical Exam</b>
09:00-09:50	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice	<b>Practical Exam</b>
10:00-10:50	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice	Free Time
11:00-11:50	Clinical Practice	Clinical Practice	Clinical Practice	Clinical Practice	Free Time
12:00-13:00					
13:00-13:50	Free Time	Amenorhea	Malignant epithelial tumors of the uterus	Free Time	<b>Theoretical Exam</b>
14:00-14:50	Free Time	Pediatric and Adolescent Gynecology	Malignant epithelial ovarian tumors	Free Time	<b>Theoretical Exam</b>
15:00-15:50	Free Time	Pediatric and Adolescent Gynecology	Non-epithelial ovarian tumors	Free Time	
16:00-16:50	Free Time	Benign Diseases of the Uterus	Case Report	Free Time	

THEORITICAL LESSONS' TOPICS:

TOTAL:64 Hours

Clinical anatomy of the female genital system (1 h)

Gynecology and obstetrics anamnesis and examination (1 h)

Preconceptional care and antenatal follow-up (1 h)

Steroidogenesis (1 h)

Menstruation physiology (2 h)

Pregnancy endocrinology (1 h)

Formation and diagnosis of pregnancy (1 h)

Fetoplacental development and physiology (1 h)

Maternal adaptation to pregnancy (1 h)

Natural delivery (1 h)

Operative vaginal delivery and caesarean (1 h)

Abnormal presentations and dystocia (2 h)

Birth complications and postpartum hemorrhages (1 h)

Pregnancy and diabetes (1h)

Isoimmunization (1 h)

Puerperium physiology and diseases (2 h)

Prenatal diagnosis and evaluation (1 h)

Multiple pregnancies (1 h)

Trauma and surgical diseases in pregnancy (1 h)  
Evaluation of fetal well-being (1 h)  
Fetal hypoxia and intrauterine growth retardation (1 h)  
Abortions (1 h)  
Third trimester bleedings (1 h)  
Preterm labor, its management and EMR (1 h)  
Post-term pregnancies and termination of pregnancy (1 h)  
Systemic diseases in pregnancy (2 h)  
Hypertensive diseases in pregnancy (1 h)  
Perinatal infections (1 h)  
Drugs and teratology in pregnancy and lactation (1 h)  
Dysfunctional uterine bleeding (1 h)  
Amenorrhea (2 h)  
Diagnosis and management of hirsutism (1 h)  
Menopauses and its management (1 h)  
Anovulation and polycystic ovary syndrome (1 h)  
Ectopic pregnancies (1 h)  
Sexually transmitted diseases (1 h)  
Pelvic inflammatory disease (1 h)  
Dysmenorrhea and chronic pelvic pain (1 h)

Evaluation of the infertile couple (1 h)

Treatment of the infertile couple (1 h)

Endometriosis (1 h)

Acute abdomen in gynecology (1 h)

Pediatric and adolescent gynecology (2 h)

Assisted reproductive techniques (1 h)

Family planning and contraception (1 h)

Pelvic organ prolapses (1 h)

Stress incontinence in women (1 h)

Genital cancer search and screening (1 h)

Benign and suspicious adnexal masses (1 h)

Benign and premalignant diseases of the cervix (1 h)

Malignant disease of the cervix (1 h)

Gestational trophoblastic neoplasms (1 h)

Benign diseases of the uterus (1 h)

Non-epithelial tumors of the uterus (1 h)

Malignant epithelial tumors of the uterus (1 h)

Malignant epithelial ovarian tumors (1 h)

Non-epithelial ovarian tumors (1 h)
